\* Source of distribution is estimated on a year to date adjusted basis.

You should not draw any conclusions about a Fund’s investment performance from the amount or estimated allocation of the distribution reported in this notice. Certain Funds estimate that the amount of the distribution is more than its income and net realized capital gains and is therefore a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with “yield” or “income.”

The amount and sources of distributions reported in this notice are estimates which may change over time, and are reported in accordance with GAAP and regulations adopted under the Investment Company Act of 1940. The characterization of a Fund’s distributions for federal income tax purposes may be different from the characterization presented above and will not be known until the completion of the Fund’s fiscal year. The final determination of the sources of each Fund’s distributions will be reported to shareholders on Form 1099-DIV, which is expected to be mailed in early 2017 for the 2016 calendar year. This notice is for informational purposes only and should not be used for tax reporting purposes.
