Performance data quoted represents past performance and does not guarantee future results. Investment returns and principal values may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown. To obtain performance information current to the most recent month-end, please visit www.salientpartners.com. All returns reflect reinvestment of all dividend and capital gain distributions. Index performance is shown for illustrative purposes only and does not reflect the payment of advisory fees and other expenses associated with an investment in a mutual fund. Investors cannot directly invest in an index. The performance shown is for the stated time period only; due to market volatility, each account's performance may be different. Return figures for periods greater than 1-year are annualized.

The share classes have different sales charges, fees and other features. Returns with sales charges reflect the deduction of the current maximum front-end sales charge of 5.50% for Class A shares and the maximum contingent deferred sales charge (CDSC) of 1.00% for Class C shares. Class A shares are available with no front-end sales charge on investments of \$1 million or more. There is, however, a CDSC of 1.00% on any Class A shares upon which a commission or finder's fee was paid that are sold within one year of purchase. Brokers that initiate and are responsible for purchases of \$1 million or more may receive a sales commission of up to 1.00% of the offering price of Class A shares. While Class C shares are offered at NAV, without any initial sales charge, a 1.00% CDSC may be charged on any Class C shares upon which a finder's fee has been paid that are sold within one year of purchase. Class I shares are offered without any sales charge to certain institutional investors and affiliates of the Fund's advisor. The return figures shown do not reflect the deduction of taxes that a shareholder may pay on Fund distributions or the redemption of Fund shares.

1. Under an expense limitation agreement, the advisor has contractually agreed to waive its management fee and/or reimburse or pay operating expenses of the Fund to the extent necessary to maintain the Fund's total operating expenses at 1.55% for Class A, 2.30% for Class C and 1.30% for Class I shares, excluding certain expenses, such as taxes, brokerage commissions, interest, short dividend expense, any acquired fund fees and expenses, litigation and extraordinary expenses. This expense limitation agreement expires on April 30, 2022, and may only be modified or terminated by a majority vote of the independent trustees. The advisor is permitted to recover waived expenses for a period of up to three years.

2. We currently estimate that approximately 91% of the February 17, 2022 distribution will be a return of capital (ROC). ROC is tax-deferred and reduces the shareholder's cost basis. When the Fund shares are sold if the result is a gain, it would then be taxable at the capital gains rate. Past performance does not guarantee future results. Distributions and the amount of distributions are not guaranteed.

3. Alerian Midstream Energy Select Index (AMEI) is a composite of North American midstream energy infrastructure companies that are engaged in activities involving energy commodities. The capped, float-adjusted, capitalization-weighted index is disseminated in real time on a price-return basis.

4. Alerian MLP Index (AMZ) is a float-adjusted, capitalization-weighted composite of energy MLPs. The AMZ is used in addition to the AMEI in order to provide further market sector performance comparisons to exchange-traded energy-related partnerships.

You should consider the investment objectives, risks, charges and expenses of the Fund carefully before investing. The prospectus and summary prospectus contain this and other information about the Fund and are available, along with information on other Salient funds, by calling 866-667-9228 or from your financial professional. They should be read carefully before investing.

Advisory services offered by Salient Capital Advisors, LLC (the "advisor"), a wholly owned subsidiary of Salient Partners, L.P. Salient is the trade name for Salient Partners, L.P., which together with its subsidiaries provides asset management and advisory services. **Salient MLP & Energy Infrastructure Fund is distributed by Foreside Fund Services, LLC.**

WORD ABOUT RISK

The Fund's investments are concentrated in the energy infrastructure industry with an emphasis on securities issued by MLPs, which may increase price fluctuation. The value of commodity-linked investments such as the MLPs and energy infrastructure companies (including midstream MLPs and energy infrastructure companies) in which the Fund invests are subject to risks specific to the industry they serve, such as fluctuations in commodity prices, reduced volumes of available natural gas or other energy commodities, slowdowns in new construction and acquisitions, a sustained reduced demand for crude oil, natural gas and refined petroleum products, depletion of the natural gas reserves or other commodities, changes in the macroeconomic or regulatory environment, environmental hazards, rising interest rates and threats of attack by terrorists on energy assets, each of which could affect the Fund's profitability.

MLPs are subject to significant regulation and may be adversely affected by changes in the regulatory environment including the risk that an MLP could lose its tax status as a partnership. If an MLP were to be obligated to pay federal income tax on its income at the corporate tax rate, the amount of cash available for distribution would be reduced and such distributions received by the Fund would be taxed under federal income tax laws applicable to corporate dividends received (as dividend income, return of capital or capital gain).

Investing in MLPs involves additional risks as compared to the risks of investing in common stock, including risks related to cash flow, dilution and voting rights. Such companies may trade less frequently than larger companies due to their smaller capitalizations, which may result in erratic price movement or difficulty in buying or selling.

Additional management fees and other expenses are associated with investing in MLP funds. The tax benefits received by an investor investing in the Fund differs from that of a direct investment in an MLP by an investor.

This document does not constitute an offering of any security, product, service or fund, including the Fund, for which an offer can be made only by the Fund's prospectus.

No fund is a complete investment program and you may lose money investing in a fund. The Fund may engage in other investment practices that may involve additional risks and you should review the Fund prospectus for a complete description.

DEFINITIONS

Master limited partnerships (MLPs) are publicly traded limited partnerships and limited liability companies that are treated as partnerships for federal income tax purposes. **Energy infrastructure companies** are companies that own and operate assets that are used in the energy sector, including assets used in exploring, developing, producing, generating, transporting (including marine), transmitting, terminal operation, storing, gathering, processing, refining, distributing, mining or marketing of natural gas, natural gas liquids, crude oil, refined products, coal or electricity, or that provide energy-related services. For purposes of this definition, such companies (i) derive at least 50% of their revenues or operating income from operating such assets or providing services for the operation of such assets or (ii) have such assets that represent the majority of their assets.

⁶ Data displayed here is ex-cash and has been rounded to the nearest tenth for illustrative purposes only. Percentages may not add to 100% due to rounding. The specific securities identified are not representative of all of the securities purchased or held by the Fund, and it should not be assumed that an investment in the securities identified was or will be profitable. Allocations are subject to change.
